Subject: RE: draft sci integrity survey

In looking at the lists of documents taken down, here the ones most relevant to this SI exercise:

- 2009 GHG Endangerment and Cause or Contribute Findings
- 2009 GHG Findings Technical Support Document
- 2009 GHG Findings Response to Comment Document (11 Volumes)
- 2010 Denial of Petitions for Reconsideration of GHG Findings (3 Volumes)

- Requested legislative technical analyses (starting in 2007)

- Climate economic modeling, including posted model peer reviews

- Social Cost of Carbon Technical Documentation

- Biogenic Accounting Framework reports

- Synthesis of comments on the Call for Information on Bioenergy and Other Biogenic Sources
- Carbon Capture and Storage Overview information
- Overview of Climate Change Science including Causes, Future Climate Change, Impacts by Sectors and by regions
- Climate change and Health overviews/fact sheets; Vulnerable Populations

Looks good, but I have some suggestions ...

Ex. 5 - Deliberative Process

Thanks

Paul

Paul, here is language that Jackie and I worked out. She ran it quickly by Reid and believes this represents his thinking, but she'll check again with him once you've weighed in and you're ok...

Jackie,

I added a bullet for CASTNET in the attached version of the scientific integrity survey.

Melissa

Melissa Puchalski

CASTNET Program Manager

US EPA Clean Air Markets Division

As discussed – see yellow highlight on page 2 – just a sentence or two. Unless you see something else you'd like to add – feel free ☺

Ok, here is my first shot draft at this (this replaces that earlier first shot I sent you Jackie). Note that I provide two alternative approaches for one key question with regard to how much depth is needed at this time.

Jackie, my sense is that we'll want to set up a meeting for some time next week to include Reid, Jackie, Paul, Rick, Rona, Deidre, Doris - - that way, we can decide what the paragraph needed by Doris for the other form should like.

Thanks, Rona
